

"Paul's knowledge of this system is virtually unlimited, and I learned a number of things I'm going to steal from him. His handling repertoire is smooth and efficient, and, like me, he is a staunch advocate of hot ranges. The vaunted Kalashnikov System will be with us for a long time, and all need to be familiar with it." –John Farnam, Defense Training International

URBAN AK: Close Range Use of the Avtomat Kalashnikova

At TacPro Shooting Center
Mingus, Texas

This class concentrates on the use of semi-automatic versions of the Kalashnikov carbine in the close range arena typical of civilian defensive scenarios. The emphasis is on quick threat engagement from the standing position, plus the use of alternate firing positions for taking advantage of cover.

"Paul Gomez is the subject matter expert on the combative use of the AK. Every serious defensive or tactical shooter needs to take this course." – Andy Stanford, Options for Personal Security

Topics covered include:

Efficiency in gunhandling	Ready positions	Sighting concepts
Semi-auto speed shooting	Transitioning to a handgun	Multiple targets
Wound ballistics	Gear selection & setup	Loading/reloading
Malfunction drill	Fighting platform	Offset

Taught by Paul Gomez, **Urban AK** is the class for every person who owns an AK variant and is interested in its effective and responsible use.

"Paul has forgotten more about the AK than most people ever knew" – Gabe Suarez, Suarez International

DATE: 2/3 December 2006

COST: \$335
