

Night Vision & Thermal Equipment Training and Live Fire Demo Event

WHO: Z Bar Supply Company partnered with TAC PRO Shooting Center

WHAT: Informative presentation about night vision and thermal products while also offering hands on experience with the most current technology like night vision goggles (single and dual tube), clip on aiming devices, thermal weapon sights and handheld scanners, various brands of laser aiming and illumination products along with current best use practices for hunting and personal protection.

WHERE: **TAC PRO SHOOTING CENTER** - 35100 TX-108 Mingus, TX 76463

WHEN: May 15th – Starts at 7PM goes til everyone has seen all the gear

TAC PRO SHOOTING CENTER will be providing the targets and shooting area – will start in the classroom with an informative presentation then move to CQB applications and then on to the 1000 yard range.

Z Bar Night Vision will have their own branded line of dual tube night vision goggles on hand to show and sell, along with Eotech/L3 Harris PVS-31s, PVS-14s, M2124-LR clip on units, LWTS and LR thermal clip-on units, NGAL and PEQ15 laser aiming devices, Pulsar Thermion and Trail series weapon sights, Axion, Helion and Accolade scanning devices, N-Vision and Trijicon thermal products. We will have products on hand for sale to “cash and carry” and will be accepting orders as well.

Space is limited – Must RSVP
