Techniques
Class to teach
you How it all
works.**

APRIL 29, 2006

**Dear Members
and Friends**

We hope you all had a wonderful Thanksgiving and are now getting ready for Christmas. Enclosed is the 2006 course schedule to get you thinking about your training calendar. Don't leave it too long, we are getting booked up quickly now. We limit our student count to ensure everyone gets the most attention they can over the three days. You will notice a price increase for the training classes in 2006 but also note that members now receive a 20% discount off courses so if you aren't up to date on your membership or would like to join just give us a call or

fill out a form the next time you are out this way and enjoy the instant savings and benefits of being a member of one of the premier shooting facilities in the country. The 3 gun tactical match in October went very smoothly even though once again we had a full 75 shooters on the day. Congratulations to Lonnie Devine who won the match and to Monte Long who was runner up. The sponsors did us proud again with a superb prize table. Thank you to all the Range officers for all their hard work.

Bill took his Accuracy International AW Super magnum .338 lapua rifle with new Schmidt Bender 5-25x56 scope to the military training ranges at Hawthorne, Nevada to shoot with some friends. They shot targets out to 1500 yards all day long from the top of the mountains and had a lot of fun with various military units who were training out there.

Check our website regularly as we update it with News items all the time. Thank you for all your support and friendship this and past years, we truly appreciate it. Merry Christmas and Happy new year. Stay safe and keep practicing

OPEN 7 DAYS 8AM - 6PM (CST)

SHOOTING USA

We had John Scoutten (son of Jim Scoutten) and his film crew from Shooting USA on OLN channel here

filming the Advanced Rifle class a few weeks ago. The program is due to air sometime in January. We will keep

you posted as to the date it will be shown. We will also have DVD's of the program if you want one.

ACCURACY INTERNATIONAL

As of the 1st January 2006 we will be the importers and main distributor for all Accuracy International products in the USA. We are rapidly catching up with back orders—all rifle orders

are back on track and accessories, but the AI chassis Systems (AICS) are still behind. These are now being manufactured in the USA so when they get their production sorted out we should

have lots in stock again. AI have a couple of new products coming out in 2006 that will be launched at the Shot Show convention in Las Vegas in February. We will keep you posted.

FORCE ON FORCE

The first of the new Force on Force classes was held at the end of November and was a huge success. This is a thrilling, fast paced, adrenaline pumping class

that makes you rethink a lot of things. Seasoned shooters even found it be something completely different from what they were expecting. If you would like to take the

Force on Force class there is a pre-requisite of at least intermediate pistol or private instruction to that level. That ensures safety and the fast moving pace of the class.

BADGER ORDNANCE

We are hosting the Badger Ordnance Sniper Invitational match on April 22-23 with a free seminar on the 21st for all attendees. This is an invitational match for law enforcement and military snipers, so if you think you qualify and would like to be considered to

attend the competition, send us or Marty Bordson at Badger an email letting us know. Marty's email address is badgerord@aol.com

There will be many firearms manufacturers and sponsors demonstrating their products on the Friday seminar and the

match will be very challenging and be physically demanding so make sure you are up to the challenge. Don't worry if you don't get to participate in this match, the TPSC Sniper Tournament is open to all on the 24-25th June 2006.
